HONGKONS, AUGUST 20rm, 1883, News comes by way of Shanghai that the blockade of the ports of Annam and Tonquin by the French has been officially notified to the Chinese Government and the representatives of Foreign Powers. Some short time ago M. CEALLEMEL-LACOUR, in reply to a question in the Chamber of Deputies, stated that there had at that time been no declaration of war between France and Annam, but that France would not hesitate to make the declaration if it were considered necessary. Apparently the declaration has now been made. In conducting their earlier operations in Tonquin the French claimed to be acting in] accordance with the provisions of the treaty with Tr. Doc, but the blockade of the ports of Annam must be considered an act of war even though no formal declaration has been made. The N. C. Daily News says "This very important action on the part of the French shews that the reports we have been granteceiving, from various quarters, of the Tonquin difficulty having been arranged or being in progress towards peaceful adjustment have had no foundation." We presume our " peaceful adjustment" means as between France and China, in which case we fail to see that the conclusion is in any way warranted by the premises. 'If China is preshe must perforce take the blockade of the ports of Annam as an act of war against herself. We have not heard that she has done so, nor do we think she is likely to do so. Possibly the French may have obtained an assurance from China that the will not interfere in the matter. This is hardly probable, but if China stands by and does not interfere, her inaction will amount to a tacitabandoument of her claims. To make a formal renunciation of these claims would entirely opposed to her usual policy. She will, we take it, pigeon-hole them, and may again bring them out to the light if a favourable opportunity should offer in the future. So far as the present crisis is concerned, however, all danger ofe war between France and China may be considered as over. France had no object in going to war with China; on the other hand China advanced claims which if they were to be maintained at all must be maintained by force; the war would therefore have had to be commenced by ber. China is avidently not prepared to make war on France and so the matter ends. As to the blockade of the Annamese and Tonquinese ports, this will constitute little or no interruption of foreign trade. Almost the bills. whole foreign trade of the country is carried on at Haiphong, which is held by the French and there trade is carried on as usual. The disturbed state of the country necessarily operated adversely on that trade for a time, but it would appear that confidence is being in

demand for cotton goods for that market. country. This will be a work of time, but will be accomplished gradually, and as it progresses so trade will be developed. What action they may decide to take with regard to Annum proper does not yet appear, but nothing was heard at Tamsui of the missing boat the probability is that they will content of the American ship Spartan, themselves with the occupation of Tonguin and the exection of an indemnity from Annam-neither of which is likely to give them much trouble.

Jamaica has been overtaken by several misfortunes during the past few years, in the shape of droughts, storms, and fires, but her productions increased and her trade revived during Sir ANTHONY MUSGRAVE's administration. and that Governor received a highly appreciative address from the colonists on leaving the island. The present singular position in which the island is placed with regard to its government is due apparently solely to the action of the authorities in Downing Street. The Secretary of Slate for the Colonies will surely not allow this anomalous condition of things to continue long in so large and important a colony as Jamaica. He can afford, no doubt, to ignore-as he basignored in the past-the representations of the residents in this far-off little isle, but an agitation in Jamaica, which has already been the

FIRST ARREST UNDER THE ANTI-CHINESE

NEW Your, 18th July. The Tribune's Boston spesial says :-- The first arrest. In this section of the country under the new anti-Chinese law was made in this city by United States Marshal Gallupe, The circumstances are as follows :- On June 19th last the English Eark Erne, Captain M. G. Douglass, arrived at this port from Manils. She had on, board as ship's carpenter a Chinaman named Ah Chung, who was shipped at the shove port. On arrival at Boston, Ah Chung signified his desire to leave the ship, threatening to desert, and, to avoid trouble, according to the Captain's state. ment, he was paid off and dispharged. On Monday it was ascertained by Marshal Gallape. that the Chinaman had been smuggled into this port, and after investigation the Captain was arrested for illegally bringing a Chinaman to this country. He gave ball in the sum of \$2,500 for appearance Thursday before Commissioner Hallet, and Ah Chung was held as a witness. The case is a peculiar one, in that the Captain appa rently was innocent of an intention to violate the law. He says the Chinaman shipped as one of the crew and was desirous of changing from his vessel to another, and that he had intention to remain in the country. The Chinaman cannot speak English, and from what he says he is apparently anxious to leave the country. It was understood from his gestures that he was in San Francisco three years ago, and if so he may be included in the list of those allowed to re-enter the country. He also said he paid the Captain a month's wages for the privilege of leaving the ship. This is denied by the Captain, who alleges that he kent his morey as compensation for the trouble caused by the Chiusman. There is, however, little difference between the stories, which will be explained when an interpreter has been secured. A CHINESE EDITOR ARRESTED.

NEW YORK, 20th July. Wong Chin Foo, editor of the Chiness American. was vesterday arrested on the charge of assault, made by Mrs. Frances Sullivan, who lives where Foo's office is. Some one threw some water out of a window on the Chinaman, and he, suspecting Mrs. Sallivan, went up to her room to remonstrate with her. Mrs. Sullivan says that the edit ir became very much excited and after some pleasant enitheta being indulged in on both sides, he struck her in the face, knocking her down.
